- ▶ A'la Carte restaurant drinks which are not in 'all-inclusive concept' are extra.
- ▶ Club House Restaurant food & beverage services are extra.

KUSADASI GOLF & SPA

The par-72 championship course at Kusadasi International Golf has been designed and built entirely with the golfer's enjoyment in mind. Following the undulating contours of the natural terrain, the stunningly beautiful course overlooks a protected national park. Bermuda grass fairways flow gently between mixed stands of 50 year-old pine, plane and olive trees in a mature Mediterranean forest setting, regularly punctuated by breathtakingly spectacular views over Kusadasi Bay and the Aegean Sea.

The impressive clubhouse is the only building on the golf course, preserving the natural essence of the playing environment.

Measuring a challenging 6,322m from the white tees, the course layout features lakes, numerous water hazards and dozens of bunkers, with many holes completely lined by mature trees on both sides of the fairway and around the green – adding extra spice to the golfing test. Brand new greens have been designed to meet stringent USGA/PGA specifications and daily pin positions test the nerve of both high and low handicappers. To maintain a steady flow of play, tee times are spaced at 10 minute intervals.

A full-time PGA Professional oversees the extensive pro-shop and academy activities, which include a superb 350m driving range as well as a huge short game practice area comprising approach green, putting green and different practice bunkers.

Children's lessons are available.

The driving range is built into a natural valley and slopes downhill towards the sea – increasing the pleasure of practice while enhancing the distances achieved – with the additional benefit of a beautiful backdrop featuring the Aegean Sea and the island of Samos.

The general public are welcome, and special golf+accommodation packages are available.

Clubhouse

KUSADASI GOLF & SPA

A spacious and elegant clubhouse - built over 3000m² - is the focal point of the golf course and features:

- Private members' VIP lounge with library and open fire
- Bar & restaurant
- Expansive, sunny terraces with spectacular sea and golf course views
- Fully stocked pro shop
- Changing areas and showers
- Members' club storage area
- Ample parking

Key course design features include:

- Virtual elimination of 'blind' strokes
- Broad elevated tee platforms, especially on par 3 holes, facilitating different shot options with the possibility of adapting the degree of difficulty to suit competitions and all levels of players.
- Fairways offering broadening ball drop areas for tee shots, which then narrow nearer the holes to combine with obstacles such as trees, bunkers etc to penalise poor approach play.
- Fairways naturally defined by water courses, hummocks, trees and bushes, and enhanced by designed-in obstacles including bunkers and lakes.
- Greens protected using the natural topography, trees, hazards and bunkers, designed to increase the difficulty and diversity of approach shots
- Great care with the design of the greens, creating the maximum range of alternative flag placements, offering putting variety and rewarding risks while penalising poor strokes.
- Golf buggy is mandatory and included in the price.
